

SARNEL SERVICES LTD

Quality Policy Statement

It is our objective to provide trained, professional staff, also reliable transport and logistics services to enable us to complete delivery and installation of IT systems to our customers requirements.

These objectives will be regularly monitored, reviewed at least annually and communicated to our staff.

To enhance customer satisfaction with our service, we provide secure facilities to carry out these and associated tasks, including redundant product disposal to current UK statutory requirements and EEC Directives, including Data Protection and the WEEE Directive.

We are dedicated to meeting our statutory and regulatory requirements, also Quality Assurance activities and continual business system improvements in accordance with the needs of our business and our ISO 9001 Quality Management System.
